DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-32, 37-49 drawn to display processing based on display position, classified in class 345, subclass 619.
 - II. Claims 33-36, 50-60, drawn to blending multiple images based on overlay position, classified in class 345, subclass 641.
 - III. Claims 61-67, drawn to selectively displaying images, classified in class 345, subclass 418.
 - IV. Claims 68-78, drawn to selective blending of graphic and video images, classified in class 345, subclass 632.
 - V. Claims 79-96, drawn to generating tiled graphics images, classified in class 345, subclass 564.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility as in a system not having the others.

See MPEP § 806.05(d).

Art Unit: 2672

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for the other groups, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Thien Nguyen to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
